

Psychology Alumnus Testimonial

"One of my biggest takeaways from my time at Pitt-Greensburg was the amount and quality of opportunities, both inside and outside of the classroom, that were available to students. I feel that Pitt-Greensburg does an excellent job of ensuring extra-curricular student growth and development, and the small-scale size of the school allowed for an intimate and personalized setting that enabled me to effectively grow. I encourage current students to get involved both inside and outside the classroom and take advantage of them because these are the experiences that I still cherish and look back on to this day."
